

Southeast Priority Species (RSGCN)

Updated as of May 3, 2021

The following species were identified as Regional Species of Greatest Conservation Need (RSGCN) through a collaborative assessment process carried out by the Southeastern Association of Fish and Wildlife Agencies (SEAFWA) Wildlife Diversity Committee. "Regional Stewardship Responsibility" refers to the portion of a species' range in the Southeast relative to North America as a whole. Additional details of this assessment can be found at: <http://secassoutheast.org/2019/09/30/Priorities-for-Conservation-in-Southeastern-States.html>
